History

Designed by James Adam in 1773, 41 Portland Place was originally built as a private home for The Honourable Thomas Gage.

Gage was a British General, best known for his many years of service in North America, including his role as military commander in the early days of the American War of Independence. 41 Portland Place's last inhabitant was the Dowager Lady Alington who passed away in 1939. After her death, the house was left empty for two years, but remained standing while surrounding buildings received bomb damage during the London Blitz.

Today the house is home to the Academy of Medical Sciences. Profits generated through venue hire of 41 Portland Place are used to fund activities run by the Academy of Medical Sciences to ensure research is rapidly translated into benefits for patients.
